Steps to embed a video

1) go to youtube and click on the video you want to use – then click on Share (see below)

2) Next click on the Embed option

3) Copy the embed code (see above)

4) Go into your course and click to + Add an activity or resource
5) Click to add page

From there, put in the description and write what you want about the video – to actually paste the embed code, click on the html box

Once the HTML box appears, paste the code in the box and then save. Save and return to course
